

A REAL DREAM

de Gamma Lord

I guess today is the day
We gonna go on a better way
If you agree just say «ok»!

We don't wanna play now
There are wounds we cannot allow
It's time to make a vow, to make a vow.
How is it possible to bear the smell of hate?
It is never too late to say «I don't wanna wait, I don't wanna wait»

Backbone of America is a mix of Amerindian, Europe and Africa et caetera,
Back to reality, we should be back to equality,
You gonna come here by-by-by-by-by my side,
We gonna be a be-be-be-better tide.
You're a black man, I'm a white man,
You're a white man, I'm a black man,
Black plus white do not make grey but love!
Realize! No shade of grey, no shade of love,
Only one billion smiles, let's sing mazal tov, mazal tov!

We dem all, we dem all, we dem, it's time to get a real dream, let's steam away, steam away (x2)

We don't need any violence,
Only our heart and our smile
To balance our difference for a while.
Look at me as I look at you,
Both of us are... are fragile,
Gimme a hug, it's a better style.

Black pains, black tears, black past, black and white,
We have a blackout, but never Knocked-Out.
We're getting up, we're rolling up,
We're building up, we're fighting up.
Nobody 'mong us is a clone
Nobody 'mong us is a clown.
There is no sky without a cloud
But our sun is never black, but our sun is never white.
Now mix your body and your mind
Now fix it all, we'll take you for a ride,
You are my sis, you are my bro, now love is not below,
We're on the same side.

We dem all, we dem all, we dem, it's time to get a real dream, let's steam away, steam away (as many times as required)
(We dem all, we dem all, we dem we dem we dem all)
(No nigger, no cracker, no nigger, no cracker)
